Transfer Instructions

COTTON

VECTOR GRAPHICS without Background

1. Position the transfer on the garment image side facing down and close the press with light pressure or just let the press rest on the transfer for 15 seconds at 356°F.

Close the press for 3-5 seconds with medium pressure.

2. Rub the transfer with a piece of cloth and remove the backing paper after 5 seconds.

3. Recover the design with “Glossy Finish” silicone paper and press at 365°F for 30 seconds with maximum pressure.

PHOTO GRAPHICS

1. Cut the transfer with a pair of scissors!

2. Position the transfer on the garment image side facing down and close the press with maximum pressure at 356°F for 30 sec.

3. Open press and peel backing sheet immediately, but in slow constant motion.

No need to repress with silicone sheet!

POLYESTER

VECTOR GRAPHICS without Background

1. Position the transfer on the garment image side facing down and close the press with medium/high pressure for 10-15 seconds at 305°F.

Close the press for 3-5 seconds with low-medium pressure.

2. Rub the transfer with a piece of cloth and remove the backing paper immediately! (Peel in slow constant motion)

3. Recover the design with “Glossy Finish” silicone paper and press at 305°F for 20 seconds with maximum pressure.

PHOTO GRAPHICS

1. Cut the transfer with a pair of scissors!

2. Position the transfer on the garment image side facing down and close the press with maximum pressure at 305°F for 30 sec.

3. Open press and peel backing sheet immediately, but in slow constant motion.

No need to repress with silicone sheet!
